1974 Sno Jet Snojet Snow

Vermont seems like an unlikely home for one of the sport's most popular snowmobile brands. But in the 1970s, Snojet called Vermont its home. Heading into the 1970s, stock market analysts predicted snowmobile sales could reach one million units per year. The sport had seen rapid growth from sales of 85,000 machines in 1968 to nearly a half-million by 1971.

Vintage Review: 1974 Snojet - Snowmobile.com

Gaston Blais lives in Gatineau, Quebec. He reached out to AmSnow to show off his custom-built ice-dragger that began life as an unassuming 1974 Astro Jet with a 440cc Yamaha engine, bogie suspension and 28-inch stance. The beast he created from that sled since purchasing it from his brother in 1986 would make anyone on the track drool!

Sno*Jet ran into troubles for the 73/74 season. The USSA were going to start a professional racing for 74/75. To have a Pro-Mod circuit, there would have to be some sort of a stock production limit. The ThunderJet could not make it. Sno*Jet was not a giant among companies, but it was steadily gaining ground.

Thunder Jet History - Sno-Jet

The Standard seat was black with a black back rest with a blue Sno*Jet oval in it.

In 1970, only two years after Yamaha produced their first snowmobile, Sno-Jet began to offer models powered by Yamaha engines. By 1973, Hirth engines were phased out completely, except for a single model in 1974 which used a small surplus supply. In 1970 Sno-Jet also offered two models using a single-cylinder Sachs 340 cc engine. The Thunderjet
