Technical Publications - Bombardier MRO

The bombardier in setting up course must eliminate any lateral motion of the fore-and-aft hair in relation to the target before he has the proper course set up. Therefore, any erratic motion of the course hair requires an additional correction by the bombardier, which would not be necessary if autopilot was adjusted to make coordinated turns.

B-17. Duties and responsibilities of the bombardier.

The Bombardier CRJ 200 Aircraft Systems Course explores all the major aircraft systems, including all the components, operations, controls, and indications involved with each system. Embedded actions and features add to both the interactivity and the educational value of this CRJ 200 type rating training course, which walks you step-by-step through all the systems and associated operations, providing far more visual explanation than a typical aircraft manual.
