The last four digits are not specific to a city but to a street address or Post Office Box. This is what an address looks like with the ZIP +4 Code: The first five digits identify the area of the country and the delivery office to which the mail is directed. ZIP Codes start with a zero (0) in the northeast and gradually get higher as you move west.

What is a ZIP +4 Code?

CITY CODE. This is the unofficial copy of the Boise City Code and does not legally bind the City in anyway. This Code is published for reference purposes only, it may not reflect recent changes to the code and should not be used for any official purpose.
